**MEDIA RELEASE
GOILALA AND KOIARI SERVICES**

Airlines PNG regrets to advise that due to safety concerns regarding the standard of the airstrips at Onogue and Fane (both in the Goilala area), the Airline has been forced to indefinitely suspend flight services to these two destinations with immediate effect.

This decision follows on from an earlier airstrip review that also resulted in AusAID and Airlines PNG deciding to suspend services to Manari, Efogi, Kagi and Milei in the Koiari area.

Airlines PNG continues to engage with relevant authorities with the aim of upgrading these airstrips to ensure they each meet the minimum standard for the Airline's operations and, accordingly, a resumption of services.

Airlines PNG confirms that both scheduled and charter services to Kokoda, Tapini and Woitape remain unaffected.

The Airline further acknowledges disruptions which have occurred in recent weeks to flights to and from these and other destinations in the domestic network.

These disruptions have largely been a result of the heavy wet season and its consequent impact on the Airline's schedule.

Airlines PNG expects similar disruptions for the remainder of this month until weather conditions improve.
