Metal Storm Dispatches Election Booklet and Prospectus to Convertible Note Holders

Brisbane, Australia – 17 August 2009: Metal Storm Limited (ASX trading code: MST, OTC Symbol: MTSXY, POMSOX code: MSTG).

Metal Storm Limited advises, pursuant to Listing Rule 3.17, that the Election Booklet and Prospectus, released to the market on 12 August 2009, will be dispatched to convertible note holders (“note holders”) today.

The timetable in the Election Booklet and Prospectus provided for mailing to note holders on Friday 14 August, however due to unforeseen circumstances dispatch on this date was not possible.

Accordingly, the timetable has been amended so that the date of dispatch of the Election Booklet and Prospectus is now 17 August 2009. In all other respects the timetable remains unchanged.

About Metal Storm

Metal Storm Limited is a multi-national defence technology company engaged in the development of electronically initiated ballistics systems using its unique “stacked projectile” technology. The company is headquartered in Brisbane, Australia and incorporated in Australia. Metal Storm Limited technology and products are represented in the USA by Metal Storm Inc., which has offices in Arlington Virginia.

Metal Storm is working with government agencies and departments, as well as industry, to develop a variety of systems utilising the Metal Storm non-mechanical, electronically fired stacked ammunition system.

Metal Storm's weapon technology uses computer-controlled electronic ignition and a system of stacked projectiles, to achieve a completely non-mechanical gun that is very lightweight and compact, providing a very high firepower to weight ratio. The Metal Storm weapons system utilizes multiple barrels mounted together on one platform which allows varying munitions types to be deployed in a single, low cost, lightweight weapon system. Firing the weapons by electronic ignition requires no moving parts, allowing reliable long term unattended weapon operation.
